

The face of hate, the racist Paul Sapiano

The Racist Sex Offender and Murderer of Black Children - Paul Sapiano

THE NEWS THE GOVERNMENT DOESN'T WANT YOU TO READ

During my time, living in Spey Street I began to suspect a number of my neighbours as having a direct involvement in the material I write about since 2017. Using police informants and undercover officers, the police targeted me.

One of these individuals is Paul Sapiano, who through my investigations in the community has been outed as a racist sex offender who targets men and young boys through drugs and programming in order to sexually abuse and rape them. I also suspect him of being a registered police informant who sets up people for arrest and torture and has conducted murders in the community, especially that of black children. Paul has direct involvement in the rape torture and trafficking of children, he has also groomed young children with drugs in order to molest them. This has all been confirmed through confidential sources.

I have lived at Spey Street for nearly four years, in this time I have personally noticed the attempted sexual advances Paul Sapiano has made towards me. On several occasions he has left his door open whilst I am in and out of my apartment and has attempted to appear “seductive” being shirtless whilst attempting to make eye contact with me.

These attempted advances repulsed me and were happening so frequently that I had to tell Paul that I wasn't into any “Batty boy” business. (That being a West Indian term for male homosexual and bisexual men) to back him off.

This had no impact and he persisted in the unwanted advances throughout the time I have lived here.

Through his actions, I have identified Paul as being a heterophobe, a heterophobe is a homosexual or bisexual man who suffers from the delusion that men and young boys are women. This was evidenced on a number of occasions when Paul would frequently stand by my door or directly outside my apartment and attempt to call me “Pauline” whilst not on a phone - he never looked at me whilst he was doing this but it was clear what he was doing.

Paul actually attempted to aggressively “bully” me at a distance in these instances shouting things like “Pauline, come here now!” Whilst directly outside my window.

At the time, I always wondered who he was talking to but I believe as a sexual predator he was utilising a trick by behaving aggressively around me to see if I was afraid of him.

Many of his victims have been abused using these methods, once fear has been detected he would start the abuse.

Paul Sapiano - The Paid Police Informant

I suspect Paul of being a paid police informant for a number of reasons. I was talking about Paul in my apartment near my door and discussing my theory on him being a police informant, unbeknownst to me Paul was actually standing near my door and could clearly hear me as I often heard his unwanted advances. Paul laughed and said: “Yeah you got me”.

Paul Sapiano - The Paid Police Informant

The other reason I suspect Paul of being a paid police informant is due to an interaction I had with Paul Sapiano on the 19th October 2021.

After the interaction which became heated, with Paul calling me a "grass" regarding the material contained in Star Family News and attempting to call me outside to instigate an act of violence, the police attended. I suspect Paul was scared I might come outside after his threats and the police arrived and entered the building. After a few minutes they left saying "He is a really nice person", clearly for me to hear.

To this day, he has never turned up outside whilst I am outside. He still, to this very day attempts territorial displays around my apartment, slamming doors, shouting etc.

Fortunately I was able to record this interaction with Paul, a copy of which can be found in the QR code at the bottom of this page.

There are a number of alarming facts that present themselves when viewing the video of the incident.

The fact that Paul that is calling me a grass and threatening me with violence illustrates that he is clearly against my community work. This is quite telling as my work is attempting to address very serious matters, including the rape torture and trafficking of children.

Is he calling me a grass because I am shedding light on sex offenders and the rapists, torturers and traffickers of children? What does it suggest he is involved in?

It alludes to the fact that he is either involved in some way or connected to the people who are involved.

You will also hear him make reference in the video I provided that he knows who raped me. I reported this incident to the police in 2017 where I was drugged and woke up at home with no memory of the incident but with discomfort in my body that indicated rape. When I chased up the status of the crime the police had closed the crime report, stating that I had closed it, when I did not.

Paul says in regards to who raped me: "You know who, don't you, you know." I then questioned him on the method he discovered this information to which he claimed to have read it in the newsletters that I produce.

This evidences a lie because I am unaware of who was responsible and I have never named the person responsible in any of my newsletters.

This alludes to the possibility he is in possession of information regarding who was actually responsible and is potentially connected to the issue I am writing about.

Please scan the first QR code for a video of the incident with me and Paul Sapiano and the second QR code for a copy of this Newsletter.

The Spey Street Building - Home to undercover officers, sex offenders and paid police informants who target me due to my work. This is the location Paul has attempted to sexually groom me through aggression. I have rejected all his disgusting advances to this day.

The Hater of Black Women and murderer of Black Children

Whilst delivering Newsletters I often talk to the community and make videos and on three separate occasions, whilst discussing Paul and his potential links to the issues I write about, community members have approached me and advised that he is directly involved in organising the murder of black children in the community.

There was a time when as a defence I would play reggae music regarding defence against sex offenders whenever I saw Paul outside, I noticed that whenever I played my resistance music there would be a stabbing or shooting of a black person in the community. When relaying this piece of the puzzle back to the community they confirmed that he was involved in the violence and murders of black people during these times.

Through the community I have also become aware that Paul hates black women and I mean he really hates black women.

As a racist male sex offender interested in abusing men and young boys he cannot stand it when a straight man like myself displays true love for black women.

The community advised me that due to his wretched jealousy of black women and his understanding that I am a straight man who only likes women, he has exhibited his evil in having black women tortured.
